

99designs

Business card template (EU standard size)

Safe area: 79mm x 49mm

Keep all the important parts of your designs (text, logo, icons etc.) within this line.

Trim: 85mm x 55mm

This is where the artwork will be trimmed.

Bleed area: 91mm x 61mm

If your background extends to the edge of the trim line, extend it to the outer edge of the bleed area so you don't have white edges when it's trimmed.
