Business card template (US standard size)

Safe area: 3.25" x 1.75"

Keep all the important parts of your designs (text, logo, icons etc.) within this line.

Trim: 3.5" x 2.0"

This is where the artwork will be trimmed.

Bleed area: 3.75" x 2.25"

If your background extends to the edge of the trim line, extend it to the outer edge of the bleed area so you don't have white edges when it's trimmed.
